

# ONE MONTE-CARLO SUSTAINABLE DEVELOPMENT CHARTER

## 22 COMMITMENTS FOR SUSTAINABLE LUXURY

• PERIOD 2022 - 2025 •

### MANAGEMENT OF SUSTAINABLE DEVELOPMENT

1. Obtain certification for our sustainable development approach and pursue continuous improvement.
2. Participate in Government initiatives by joining different networks like “Responsible Restaurants” and “Ma Consigne”.
3. Drive our sustainable development initiatives through “One Team” and involve all employees to ensure the application of environmentally responsible best practices.
4. Provide ongoing training in various topics relating to sustainable development.
5. Implement the recommendations made from monitoring best sustainable development practices and anticipate upcoming changes in regulations.

### INTERACTIONS WITH OUR CUSTOMERS AND STAKEHOLDERS

6. Provide clear, transparent and up-to-date information on our sustainable development actions.
7. Raise awareness among our customers of our sustainable approach and our “Responsible Restaurant” label.
8. Offer customers more responsible products and services, in particular environmentally-responsible meetings.
9. Collaborate with associations and the authorities in Monaco on charitable activities and action to protect the environment.
10. Take into account the environmental profile of suppliers and service providers.

### REDUCTION OF OUR CARBON FOOTPRINT

11. Favour purchases with a low carbon footprint: local, seasonal and vegetarian products.
12. Develop purchasing of products with green certifications.
13. Develop the circular economy, anti-waste measures and the reduction of waste at source.
14. Reduce the carbon footprint of energy consumption: green energy contracts, reduction in consumption, efficient installations, production of renewable energy.
15. Promote low-carbon mobility (the SBM shuttle, Monabike, CAM bus network).
16. Reduce our digital footprint by buying non-expendable equipment, achieving low levels of consumption and raising awareness of good practices.

### REUSE, RECYCLING AND PRESERVATION OF OUR HERITAGE

17. Control any risk of soil and coastal water contamination.
18. Preserve sources of drinking water and limit consumption.
19. Reduce the use of dangerous products and improve their end-of-life management.
20. Reuse and recycle waste by sorting it and monitor the volume collected.
21. Preserve and enhance the natural and botanical heritage of One Monte-Carlo.
22. Support and carry out projects which have a positive impact on biodiversity.

EMMANUEL SINE  
GENERAL MANAGER
