

SUSTAINABLE DEVELOPMENT CHARTER MONTE-CARLO SOCIÉTÉ DES BAINS DE MER

THE GROUP'S 22 COMMITMENTS TO SUSTAINABLE LUXURY

• P E R I O D 2 0 2 2 - 2 0 2 6 •

IMPLEMENTATION OF THE SUSTAINABLE DEVELOPMENT POLICY

1. Develop our commitments in line with those of the Principality of Monaco.
2. Maintain our certifications and achieve Green Globe certification for the whole Monte-Carlo SBM Resort.
3. Involve all employees in the Group's Sustainable Development approach.
4. Develop ongoing training in various issues relating to Sustainable Development.
5. Increase monitoring of best Sustainable Development practices and anticipate upcoming changes in regulations.

COMMUNICATION WITH OUR CUSTOMERS AND STAKEHOLDERS

6. Provide clear, transparent and up-to-date information on our Sustainable development actions.
7. Develop more responsible offers for our customers.
8. Collaborate in an organised and sustainable way with local social and environmental associations and charities.
9. Involve our major suppliers and service providers in our Sustainable Development actions.

DECARBONISATION

10. Implement a Decarbonisation Plan for the activities of Monte-Carlo Société des Bains de Mer.
11. Favour purchases with a low carbon footprint; local, seasonal and vegetarian products.
12. Develop purchasing of products with green certifications.
13. Develop the circular economy, anti-waste measures and the reduction of waste at source.
14. Reduce the carbon footprint of energy consumption and develop the use of renewable sources of energy.
15. Promote clean mobility.
16. Reduce our digital impact.

REUSE, RECYCLING AND PRESERVATION OF OUR HERITAGE

17. Control any risk of soil and coastal water contamination.
18. Preserve sources of drinking water and limit consumption.
19. Reduce the use of dangerous products and improve their end-of-life management.
20. Reuse and recycle our waste.
21. Preserve and enhance the natural and botanical heritage of Monte-Carlo Société des Bains de Mer.
22. Support and carry out projects which have a positive impact on biodiversity.
