

# SUSTAINABLE DEVELOPMENT CHARTER

## MONTE-CARLO BEACH

### OUR 25 COMMITMENTS TO RESPONSIBLE LUXURY

• 2023 - 2026 •

#### MANAGEMENT OF SUSTAINABLE DEVELOPMENT

1. Implement the establishment's Sustainable Development Charter and its variants per service
2. Maintain environmental and sustainable development certifications: Green Globe certification, Label Restaurants Engagés (Committed Restaurants label) and the French League for the Protection of Birds (LPO) Refuge certification
3. Maintain the viability of our approach through the Green Team and all the staff members
4. Participate in government initiatives through various networks such as the "National Pact for Energy Transition", "Monaco's Protected Marine Areas", the Tourism Department, etc.
5. Provide ongoing training for staff  
→ "Fresque du climat" training, L.P.O. training...

#### COMMUNICATION AND MOBILISATION

6. Ensure our customers are aware of our Sustainable Development approach  
→ Monte-Carlo Beach charter
7. Enhance communication with our customers and stakeholders concerning our eco-friendly proposals and strive to extend our eco-friendly offer  
→ Presence on social networks
8. Involve all our professions in environmentally-friendly actions: information, advice, procedures and eco-gestures
9. Ensure suppliers and service providers are aware of our Sustainable Development policy  
→ Supplier charter
10. Support individual charities, personal investment and national and international events  
→ Keep abreast of individual initiatives, "Christmas in September"

#### REDUCTION OF OUR CARBON FOOTPRINT

11. Reduce our carbon footprint in keeping with the objectives of the Principality and the SBM Group

12. Apply our responsible purchasing policy to the maximum
13. Prefer local, organic purchases, direct distribution networks and seasonal products  
→ Partnership with the Domaine d'Agerbol in Roquebrune-Cap-Martin
14. Promote clean mobility by offering our customers transfers in electric vehicles  
→ Electrically assisted bicycle station
15. Encourage staff to use eco-responsible means of transport  
→ Klaxit application
16. Combat food waste  
→ Gourmet Box and Wine Bag available in all restaurants

#### REUSE, RECYCLING AND PRESERVATION OF OUR HERITAGE

17. Reduce waste from all processes at source in line with Monaco's environmental programme for 2030
18. Control the use of hazardous products and recycle soiled product cans through a specific channel
19. Recover our waste on 22 levels: edible oils, SPA3, metals, cigarette butts...  
→ New collection to come: pond of coffee for the vegetable garden
20. Promote local farming culture  
→ "L'Oignon Rose de Menton" with the Semences Paysannes association
21. Continue to ban all consumption of endangered species  
→ Mistergoodfish or Ethic Ocean programme membership
22. Support local associations in the preservation of protected species with the French League for the Protection of Birds (LPO)  
→ Awareness day raising among staff and young people
23. Support and implement projects with a positive impact on biodiversity, such as the underwater reef dam  
→ Organisation of discovery outings by snorkelling
24. Protect water resources through awareness campaigns and recovery actions  
→ "Make every drop count"
25. Control any risk of soil and coastal water contaminations

RENÉ BLINO
